CASE STUDY

...Rhonda selected food for her family that would sustain them for the next two weeks. As she emerged from the food pantry, one of her children exclaimed "MAMA, WE HAVE FOOD!" - a clear indication of how long the family had gone with empty cupboards. The kids clamored to help their mother carry the bags out of the center.

CASE STUDY

"So many of these moms are so appreciative of us and learn so much from us. What we do is very valuable."

- COLLEEN KAHN, RN WITH THE MOTHER AND BABY HOME HEALTH PROGRAM
