

Family Financial Transformations™

Designed to help break the cycle of debt, Catholic Charities of Northeast Kansas in partnership with CommunityAmerica Credit Union Foundation offers families and individuals the Family Financial Transformations™ program. Participants work with a team of professionals who are committed to helping families reach financial self-sufficiency.

During this 12-month program, participants receive financial classroom instruction as well as individualized budget coaching and personal goal development.

Geared for the whole family, childcare is provided for younger children and those children eight years and older are able to participate in their own age-appropriate financial education classes. Graduating participants also enjoy personal and educational incentives alongside ongoing community mentorship.

The Family Financial Transformations™ program is currently offered in Johnson and Wyandotte Counties.

Family Financial Transformations™

Emily's Hope Story

Emily started the Family Financial Transformations™ (FFT) program nine months ago with her number one financial goal being to buy a home for herself and her daughter, Becca. She didn't know how to start this process, and had no relationship with a financial institution.

After a few months of being enrolled in the FFT program Emily developed a plan that included savings for a down payment on a home and creating an active relationship with a financial institution. A few months ago, she was able to open her first bank account. Emily has already saved \$7,834 and she is in the process of looking for a house with the assistance of a real estate agent.
